

SMALL BUSINESSES CAN SAVE NET NEUTRALITY

6909 American businesses support the CRA to block the FCC's repeal of net neutrality.

FIGHT FOR THE FUTURE

Dear Member of Congress,

We are companies who rely on the open Internet to grow our business and reach customers online. We are asking Congress to issue a “Resolution of Disapproval” to restore net neutrality and the other consumer protections that were lost when the Federal Communications Commission (FCC) voted to repeal the 2015 Open Internet Order in December 2017.

Users and businesses need certainty that they will not be blocked, throttled or charged extra fees by Internet service providers. We cannot afford to be left unprotected while Congress deliberates.

We will accept nothing less than the protections embodied in the 2015 order. Please ensure the FCC keeps its tools to protect consumers and business like ours.

Thank you for considering our views.

Sincerely,

The undersigned.
